

FIRE IN POOR HOUSE
CLOSE TO MADISONFLAMES DESTROY THE VERONA,
WIS., INSTITUTION.

Most of The Patients Rescued, Though
It Is Thought Some May Have Per-
ished—Communication With the
Spot Cut Off—Superintendent Hurt
—How the Fire Started.

MADISON, Wis., July 27.—About mid-
night last night, fire was discovered in
the county asylum for chronic insane
at Verona, about ten miles from the
city, and loss of life is rumored. The
fire started in the hall between two
main buildings, and soon spread
through the hall and into the water
tower between both halls and main
building. The fire was quickly be-
yond control. Help was telephoned for,
and Madison sent an engine on a special
train. When the fire broke out Super-
intendent Edwards took personal
charge of the fire fighters and at the
same time gave instructions to his
assistants to see that all the patients
were safely taken out of the burning
building. This was done with the
greatest difficulty, owing to the confusion
and the excitement. Many of those
who were most able-bodied assisted in
getting the others out. The first idea
was to save life and then the property.
The lack of proper fire apparatus greatly
impeded the work, the village of Ver-
ona not being supplied with the latest
apparatus.

Superintendent Edwards, as soon as
possible, telephoned to Madison for as-
sistance, for he saw that the flames
were getting beyond control. He went
to the roof himself, in order to better
direct the band that was endeavoring to
check the progress of the flames, which
soon threatened the entire building
with destruction. The water from the
hose pipe made the roof slippery, and
the superintendent, unused to the novel
work, lost his balance and fell to the
ground. He was picked up unconscious
and cared for, though it is feared his
injuries may prove fatal.

The other volunteer firemen made a
brave fight against the flames, though
it was impossible to do much to check
their progress until the engines came
from Madison. The building is practi-
cally a total loss.

When the fire first broke out every
effort was made to keep the fact from
the insane patients. But such precau-
tions were dealt a deathblow inside of
ten minutes, for the smell of smoke
flung the unfortunates into a terrible
panic. They flung themselves against
the barred windows and shrieked to be
let out. They fought with each other
to get to the windows, where they
tugged at the iron gratings with the
strength of despair.

When the authorities saw that the
structure was doomed, they decided to
let the lunatics out. The doors were
flung wide open. Out dashed the de-
mented creatures in their night cloth-
ing. The moment they reached the
doors the rush from behind was so
great the patients in the first row were
flung upon the floors. The others rushed
over them pell-mell. Gaining the out-
side, there was a wild scattering. The
lunatics seemed to disappear like snow-
flakes in a spring rain.

Owing to the hurried exit and the
great confusion it is not known whether
any lives were lost or not. It is feared,
however, that at least a few of the un-
fortunates did not get out in time. The
exact situation is not yet known. The
only communication with the city was
by telephone, and that was cut off by
the flames.

BLOODHOUNDS TO TRACK HIM.

Heroic Measures to Capture Ida Geb-
hardt's Murderer.

Indianapolis, Ind., July 27.—The peo-
ple of West Indianapolis have raised a
purse of \$1,000 with which to employ
bloodhounds and detectives to hunt for
the murderer of little Ida Gebhardt. It
is now a week since the child was killed
and several rains have fallen, but the
attempt to track the murderer with
hounds will be made notwithstanding
this fact. Charles Davidson, arrested
for the assault on Ida Hutchinson, and
who narrowly escaped lynching Thurs-
day night, was yesterday admitted to
bail in the sum of \$5,000. It de-
veloped that Davidson was at the Hutchin-
son house Monday, and not finding the
parents at home, left word that he
would call again Thursday. It is
charged the assault upon Ida then took
place.

Mrs. Hayward Before a Jury.

Hannibal, Mo., July 27.—Mrs. Hay-
ward of Chicago, was called before the
grand jury yesterday. She was ex-
amined by Prosecuting Attorney H.
Clay Heather, and kept on the witness
stand for over two hours. As the jury
sits behind closed doors nothing as to
what transpired is known definitely.
Mr. Heather said: "There is evidence
in this Stillwell case which has never
before brought to the attention of any
former grand jury, and which was not
brought out in the depositions recently
taken in the libel suit."

Not Eager for Holmes' Extradition.

Toronto, Ont., July 27.—While the po-
lice and detectives are eager for the ex-
tradition of Holmes, it is learned that
the attorney-general is no way anxious
to be put to the expense and trouble of
the trial, if a conviction upon a capital
charge can be had elsewhere. The
Philadelphia authorities have been no-
tified of the issuance of the warrants
simply to give Toronto precedence over
Chicago, Detroit or any other place that
may lodge information.

Death for Pulling Rail Spikes.

City of Mexico, July 27.—A man
caught removing spikes on a rail on the
Mexican National road at Otumba will
be shot under the new law suspending
the right to trial by jury in case of at-
tempts to wreck trains or interfere with
the transportation of mails and passen-
gers.

POLICE STILL AT WORK.

Accomplices of Holmes Likely to Be
Arrested at Chicago.

Chicago, July 27.—Mrs. Patrick Quin-
lan has told the police things which
before had not been acknowledged. It
has resulted in making the police more
than ever suspicious of her husband
and the part he took in the mysterious
business of H. H. Holmes. More ar-
rests of accomplices of the wholesale
murderer are expected daily. Inspect-
or Fitzpatrick located Quinlan's child
yesterday.

The police at work in the cellar of
the Holmes Englewood building yester-
day discovered a bench the top of which
was stained red. Dr. Robinson exam-
ined the stains and said he thought
they were dried blood.

The list of persons who have disap-
peared and are supposed to have been
murdered by H. H. Holmes is now as
follows: B. F. Pitzel, Alice Pitzel, Nel-
lie Pitzel, Howard Pitzel, Mrs. Julia
Conner, Pearl Conner, Minnie R. Wil-
liams, Anna or Nannie Williams, Em-
eline G. Cigrand, and a Chicago girl
whose name the Chicago police do not
reveal.

The persons whom it is known
Holmes attempted to murder number
two—namely: Mrs. B. F. Pitzel, Jona-
than S. Belknap.

AN ANGRY IOWA MOB.

Unsuccessful Effort Made to Lynch Young
George Roberts.

Burlington, Iowa, July 27.—Young
George Roberts, an all-round tough,
who has served a term in the Illinois re-
form schools and was released but re-
cently, came near meeting death at the
hands of an infuriated mob yesterday
afternoon for an attempted assault
upon Amelia Scheidemann. Although
but a mere child, the girl fought with
all her strength, screaming for help.
Some men heard her and came to the
rescue. So enraged were they that they
would have strung him up to a near-by
telegraph pole had a rope been handy.
As it was they pounded him fearfully.
He escaped and fled through the town,
but was finally captured by some cooler
persons, who turned him over quickly to
the police, who were also in hot pursuit.
There is little doubt had he been caught
by the mob he would have been mur-
dered, hanged, beaten or burned to
death. As it is he is in the county jail
badly bruised and cut up, and is under
a heavy bond. Roberts is a married
man, having been married but three
months, and is a neighbor of Miss
Scheidemann's father. The girl is
badly prostrated, but is not seriously in-
jured.

An Accomplice of Holmes.

Little Rock, Ark., July 27.—It has
been discovered at Fort Worth, Tex.,
that the Arkansas penitentiary holds a
former accomplice of H. H. Holmes,
the alleged murderer, and that he is in
possession of valuable information,
which the Fort Worth authorities are
willing to go to considerable expense
in obtaining. His name is John C. Al-
len, alias John H. Caldwell, and is serv-
ing a fifteen-year term in the Arkan-
sas penitentiary for horse-stealing. He
declines to give any information, ex-
cept to say that one of the Williams
girls is dead, but that the other is alive,
but which one is alive and which is dead
he will not say.

Dues, Murder Trial.

Union, Mo., July 27.—Arthur Dues-
trow, the millionaire who two years
ago murdered his wife and child, was
brought to trial yesterday on a charge
of venue from St. Louis. Duestrow's
defense will be alcoholic mania. It is
anticipated that the trial of the case
will occupy three weeks, and possibly
more. Each side has between sixty
and eighty witnesses summoned, and
the necessities of rebuttal may develop
more. The trial proper will not begin
until Monday.

Capture of a Noted Desperado.

San Francisco, Cal., July 27.—John
Brady, who robbed the Oregon express
four months ago, and is suspected of
having murdered Cornelius Stabb at
Ingleside previously, was captured near
Courtland yesterday by a deputy sheriff
and a ranchman. Great excitement
prevails here, and the jail is surrounded
by hundreds of citizens.

Lynched and Then Found Innocent.

Ford, Ky., July 27.—It has developed
that the negro, Bob Haggard, who was
lynched here last week, charged with
having outraged Miss Elkin, was inno-
cent of the crime with which he was
charged. The work was done by a few
hot-headed men who did not take time
to inquire whether Haggard was guilty,
or not.

THE TRADE REVIEW
FOR LAST WEEKEXPORT DEMAND FOR WHEAT
IS DULL

Prices of Iron and Steel Products On
The Rise—Good Crop Prospects
Help Railroads on Wall Street—
Failures of the Week are Not Nu-
merous.

New York, July 27.—R. G. Dun & Co.'s
Weekly Review of Trade says: "This is
not the season for the tide of business
to rise, but there is perceived scarcely
any shrinkage except that which comes
naturally with midsummer heat. The
volume of new business is small com-
pared with recent months, but large
enough to encourage more openings of
long-closed works and more advances
in returns to labor. Important strikes
show that the advance is not enough
for some, but the strikes seem not more
threatening than a week ago.

"Accounts of shrinkage in the yield
of wheat come both from Pacific states
and from the Dakotas. It would be a
strange and unnatural July without
such reports, and yet they have weight
enough this year to lead even the most
experienced to reduce somewhat their
estimate of yield, while the price has
advanced 3 1/2 cents. Light Western re-
ceipts for the week—not a third of last
year, and for four weeks only 5,366,063
bushels, against 11,983,619 bushels last
year—strengthen adverse reports, be-
cause the price a year ago was about
20 cents lower than it is now. The
Western movement largely depends on
the export demand, which is phenom-
enally light. Corn advanced about a
cent with wheat, but has since lost all
the gain. Cotton has remained un-
changed at 7 cents, although the latest
reports favor larger estimates of the
yield.

"Prices of iron and steel products still
rise, the feature this week being the
startling advance of 50 cents per keg in
cut and wire nails. There is a distinct
halt in new demand, though nearly
all iron and steel works are crowded
with orders for some time to come.
Prospects that other furnaces, with a
capacity of 8,000 tons weekly in the
east and as much in the south, will go
into blast within the remaining months
of 1895 hinder a further rise in pig.
Copper has again advanced, lake to
1 1/2 cents, contracts having been made
this month for 20,000,000 pounds, and
lead is also strong.

"Textiles have a better outlook, with
larger demand both for cotton and
woolen goods, a shade advance in print
cloths and in most bleached goods, and
a more hopeful market for lightweight
woolens, which, if scarcely advanced
beyond last year's prices, are, on the
whole, selling better. Enormous sales
of wool, 44,778,864 pounds in four weeks,
against 29,220,250 pounds in 1892, far ex-
ceed actual consumption, but reflect the
belief that the prices will not decline,
and the few changes this week have
been upward. Scarcity of domestic
wool in eastern markets is in part due
to heavy speculative withdrawals.

"Failures for the week were 202 in
the United States, against 249 last year,
and twenty-seven in Canada, against
thirty-nine last year."

BIG STORM IN JAPAN.

Several Vessels Wrecked and Great Loss
of Life Feared.

Philadelphia, Pa., July 27.—A violent
hurricane is reported to have swept the
coast of Japan, during which many ves-
sels were wrecked and their crews
drowned. The information of the loss
of life was meager. The cablegram
was sent from Roshinotzu. The Ger-
man steamship Helen Rickmers and the
Norwegian steamships Lyderhorn and
Herman Wedel, Jarlsburg, the British
steamship Bentla, and the ship Manuel
Suchet from Philadelphia were all
blown ashore, and all are believed to
have been totally wrecked except the
Bentla. The loss of life on shore is re-
ported to be large.

Will Grant Some Increase.

Marquette, Mich., July 27.—The an-
swer of the mining companies to the
demands of the strikers was returned
yesterday. The companies say they are
unable to grant the full demands of the
men, but can make some increase.
The several companies will deal with
their employees separately and the
agents will meet the men at the mines
Monday to state the precise terms that
will be offered.

Durant Jury Hard to Get.

San Francisco, Cal., July 27.—In the
Theodore Durant trial yesterday the
work of choosing a jury began in ear-
nest, but it progressed slowly. Almost
all the jurors summoned have formed
impressions which will require strong
evidence to relieve. The number of well
dressed women at the trial increases
every session of the court. Continual
efforts are made by girls to lionize the
defendant.

Wichita, Kan., in Danger.

Wichita, Kan., July 27.—The largest
body of water known in its history is
reported to be rushing down the Arkan-
sas River toward this city, and an
inundation of the city seems imminent.
The flood is expected to reach here to-
day and the railroads are strengthening
their bridges in preparation for it.
Thirteen bridges span the two rivers at
this point.

Ask for Beck's Removal.

Pender, Neb., July 27.—A large dele-
gation of leading Indians of the Omaha
tribe met here and passed resolutions
asking the congressional delegation to
use its influence to have Agent Beck
removed. They stated also that they
didn't want an agent, but they desired
to be allowed to attend to their own
business.

Bradford, Pa., July 27.—A message
from Glen Hazel early this morning
says fire started at 12 o'clock in the
lumber yard of Weed & Co., and at pre-
sent has spread to four or five dwellings.
The town is in danger. Assistance
from Bradford has been asked.

SETTLERS WIPED OUT
AT JACKSON HOLEINDIANS HAVE COMMENCED
THEIR BLOODY WORK.

Men, Women and Children Alike Fall
Victims To the Fury of the Savages
—Story Brought To Market Lake
By a Hunting Party—Senator Ham-
mer of Illinois, Brings in The News.

Denver, Colo., July 27.—The News has
the following from its correspondent at
Market Lake, Idaho: "M. J. Gray, L.
M. Tart, and Senator Hamer, of Illinois,
and T. R. Hamer, of St. Anthony, all
left St. Anthony Wednesday morning
on a fishing trip to Jackson's Hole, tak-
ing no stock in the Indian war. Yester-
day they came back, and report every
man, woman, and child in Jackson's
Hole murdered.

"One of the News' couriers just re-
turned, got far into Teton Basin, which
is the present point in danger of massa-
cre, now that the Jackson's Hole citi-
zens are all butchered. He reports that
the smoke of a large fire can be seen
several miles south of Grand Teton in
the direction of Jackson's Hole. There
is no doubt that the Redskins have fired
every home and cabin, and will soon be
repeating their work this side of the
Teton range, in Teton Basin, and per-
haps after that all down the Teton river
valley, in Idaho.

"Two hundred Utes were reported to
have gone north to join the Indians in
Hoback Basin early this week. Small
parties of Lemhis have been slipping in
daily across the Conant Trail, some-
thing they have not ventured to do
since the Yellowstone National park
was enlarged in 1891.

"People in St. Anthony, Roxburg,
and other towns located in Idaho be-
tween the railroad and Jackson's Hole
have been all along placing no confi-
dence in the 'Indian scare,' as they
called it."

Not Heard of at Pocatello.

Pocatello, Idaho, July 27.—Fifteen In-
dians and 150 saddle-horses passed
through Beaver Canyon Thursday from
the Lemhis agency, going in the direc-
tion of the National Park, supposedly to
join the Bannocks in their massacre of
settlers. Excitement in Pocatello is
growing hourly. The citizens are agi-
tating the question of arming them-
selves to-night and leaving to rescue
the people in Jackson's Hole. There are
several Pocatello people located there,
including veteran Tom Bell, and it is
feared they are among the unfortunates.

Confirmed from Omaha.

Omaha, Neb., July 27.—Union Pacific
headquarters were notified at 8:30 last
night by the company's superintendent at
Pocatello, Idaho, of the receipt of a
telegram from the Union Pacific agent
at Market Lake to the effect that all
Jackson's Hole settlers had been mas-
sacred by the Indians, their stock killed,
their homes burned. The agent de-
clares that the information is perfectly
reliable.

ORIGIN OF THE TROUBLE.

Adjutant General Stitzer's Report to
Gov. Richards.

Cheyenne, Wyo., July 27.—Adjutant
General Stitzer has forwarded his re-
port of the Indian trouble to the gov-
ernor. Mr. Stitzer says:
"In an interview on Sunday with four
prominent residents of Jackson's Hole
the following statements were given to
me as grounds for the action of the
settlers: They claimed that the Ban-
nocks, Shoshones and Lemhis have for
the last six years slaughtered game in
large numbers, mainly for their hides.
In 1894, after repeated appeals from
the county authorities of Fremont and Un-
tah counties, the Interior Department
ordered that no more passes should be
given to the Indians allowing them to
leave the reservations to hunt. It is
estimated that 5,000 elk were killed in
that year.

"This year the settlers in Jackson's
Hole determined to enforce the laws
against the Indians and the whites
alike. On June 24 a process was issued
for the arrest of nine Bannock Indians
for violating the law. When the com-
stable and posse attempted to serve
their papers they resisted and threat-
ened to kill them unless they went back
to Jackson's Hole.

"Just about this time a squawman liv-
ing at the hole received a letter from
the Bannocks stating that the Ban-
nocks intended to go on the war-
path and kill the whites in Jack-
son's Hole country. This letter was
shown to the settlers and created a
great deal of excitement.

"On July 2 eight Bannocks were ar-
rested for killing game, and six of them
were fined \$75 and cost, and sentenced
to jail until the fine was paid. They es-
caped from their guard and on July 10
more of the same tribe were arrested.
They attempted to escape after trial
and were fired on by the whites and
several of them were killed.

"On July 9 Capt. John Smith, a min-
er and prospector, was fired on from
ambush and wounded in the right
breast. He returned the fire, killing one
of the Indians. The shooting of Cap-
tain Smith caused a great deal of ex-
citement and the settlers, believing that
the letter received by the squawman
was true, prepared to defend themselves
against the expected attack.

"Besides killing large numbers of
game, all the Indians arrested had in
their possession hides taken from the
settlers' cattle, which the Indians had
killed, and it is claimed over 3,000 head
of elk have been killed this season,
the Indians chasing the game into the
settlements and shooting indiscrimin-
ately among the houses, endangering
the lives of settlers."

JIM BALLARD'S TOUGH BAND.

Composed of the Worst Element of Bel-
ligerent Bannocks.

Pocatello, Idaho, July 27.—Some In-
dian police who have returned from the
Salt River valley, where the big trading

pow-wow has been in progress for a
week, say that the band of Bannock In-
dians under the leadership of Jim Ball-
ard, has started north toward the seat
of trouble. If these Indians reach the
belligerents in the Fall River valley be-
fore the troops get there, and they un-
doubtedly will, the result may be disas-
trous.

Ballard's band is composed of the
worst element of the Bannocks, a tribe
that in the general run is bad enough,
for they are as a rule, lazy, shiftless,
fighting Indians. This particular lot,
however, are the restless spirits of the
tribe, always ready for a quarrel, even
in times of peace, and in the present ex-
citement it would require much less
leaven than these filthy, turbulent
braves to stir to an intense pitch the al-
ready excited gathering on Fall river.
The authorities at Bannock agency have
all along been congratulating them-
selves that Ballard and his gang were
not at the seat of trouble.

Troops at Market Lake To-day.

Washington, July 27.—The war depart-
ment has been informed from head-
quarters of General Coppinger at Om-
aha that the four squadrons of the
Ninth cavalry, under Major Chaffee,
from Fort Robinson, probably will ar-
rive at Market Lake, Idaho, the nearest
station to, and about 120 miles distant
from, the scene of the Indian troubles
in Jackson's Hole, at 8 o'clock this
morning. General Coppinger will be at
the station at the same time, or just
before the troops arrive.

MISS ANTHONY STRICKEN.

She Has an Attack of Heart Trouble
While at Camp Meeting.

Lakeside, O., July 27.—Miss Susan B.
Anthony, who is in attendance at the
W. C. T. U. services, was seized yester-
day morning with an attack of heart
failure and for a time her condition

SUSAN B. ANTHONY.

was serious and grave doubts were ex-
pressed as to her recovery. She ral-
lied, however, during the afternoon,
and in the evening attended the services
of the union at the chapel. She was in
excellent spirits late in the evening
and said she feared no return of the at-
tack. Wildest excitement ensued on
the announcement of her serious con-
dition, but the fears of the visitors were
soon quieted by the physicians, who ad-
vised them that Miss Anthony was in
no immediate danger.

HOLMES WILL NOT CONFESS.

His Lawyer Confident He Can Not Be
Convicted of Murder.

Philadelphia, Pa., July 27.—Lawyer
William A. Shoemaker, who represents
H. H. Holmes, said yesterday: "The
public mind had better be disabused of
the idea that Holmes will make a con-
fession. He has told all he has to tell
and has nothing more to confess. He
feels confident he cannot be convicted
of murder, and just as confident that
when the time comes it will be proved
that the bodies found were used in in-
surance schemes only. The Chicago
people have no case at all, and have
merely been cutting a ridiculous figure
before the public. I know nothing of
Holmes being tried here. The first of-
ficial notice I would get would be an in-
dictment, and so far as I know no steps
in that direction have been taken." District
Attorney Graham also said
that no decision had been reached re-
garding the place of trial.

Dynamite on the Rails.

Indianapolis, Ind., July 27.—Section
hands clearing the right of way on the
belt tracks yesterday discovered three
sticks of dynamite fused in such a
position that they would have been dis-
charged together. The mine was suffi-
cient to have demolished a freight train
and killed or maimed the crew. The
road would have been torn up for sev-
eral hundred yards. Investigation is be-
ing made, as some months ago officials
received word that the Union Station
would be destroyed by a similar plan.

Spring Valley Miners at Work.

Spring Valley, Ill., July 27.—The min-
ers returned to work yesterday after the
scales were fixed and certified to be cor-
rect by Mine Inspector Fellows. The
miners claim that if they detect any
more shortage of weights they will quit
without any notice and remain idle until
they are made correct again. The new
law, which only compels the state in-
spector to inspect scales twice a year,
is not satisfactory. They say they are
as bad as ever a few days not after in-
spected.

Wants Them to Leave the Cities.

Kansas City, Mo., July 27.—Grand
Master Workman Sovereign of the
Knights of Labor in an interview here
said he was looking up good farming
lands for laboring men. His aim is to
have as many Knights of Labor as
possible go to agriculture and fruit
lands for permanent settlement and oc-
cupation. The overcrowded condition
of the cities, he maintained, is the cause
of so much idleness among workmen.

Fatal Railway Wreck.

Paris, July 27.—A train crowded with
pilgrims returning from the shrine of
St. Dauray was wrecked near the town
of St. Brieu yesterday. Twelve per-
sons were killed and twenty-five in-
jured.

PHILLIPS HAS RISEN
FROM HER ASHESCELEBRATION OF THE FIRE
ANNIVERSARY TODAY.

Citizens Spend \$1000 in Showing the
State That They are Thorough-
breds—Other Events Of the Day—
Iowa Spiritualists—Lincoln Park
Regatta in Chicago.

Phillips, Wis., July 27.—This city
is in gala attire today celebrating the
building of the city anew in one year.
The citizens have raised \$1000, which
is being spent to show the world the
kind of material the business men are
made of.

Clinton, Iowa, July 27.—The Mis-
sissippi Valley spiritualists associa-
tion commences its annual meeting
here tomorrow at Mt. Pleasant park.
The session will last four weeks.

Chicago, July 27.—The Lincoln
Park navy regatta takes place this
afternoon.

Coucester, Mass., July 27.—The
first regatta of the season takes place
this afternoon. There are four
classes. The course is about fourteen
miles. The entries closed at noon to-
day.

ILLINOIS LEGISLATURE.

After a Little Work Both Houses Ad-
journ Until Monday.

Springfield, Ill., July 27.—The house
yesterday went into committee of
the whole, with Mr. Needles in the
chair, to consider Mr. White's revenue
bill. After the adoption of some minor
amendments the committee rose and
reported the bill to the house with the
amendments. The bill was ordered
printed as amended. The house then
adjourned to 5 o'clock Monday after-
noon.

The senate was in session just ten
minutes. Mr. Bogardus presided in the
absence of Lieutenant-Governor GILL,
and a bare quorum of senators was
present. Senator Humphrey, chairman
of the committee on judiciary, reported
Hogan's house arbitration bill, with
committee amendments. It was read
and amendments adopted, and the bill
was advanced to third reading without
debate. The regular order of business
was adhered to, but there was nothing
on the calendar except Paisley's mo-
tion to have his bill requiring foreign
corporations in Illinois to maintain an
office where service could be had sent
from the committee on revenue to that
committee. This came up on a pend-
ing question, but was withdrawn. The
senate adjourned until 5 o'clock Mon-
day.

COAL MINERS' TROUBLES.

Serious Charges Made Against the Chi-
cago & Eastern Illinois Railroad.

Terre Haute, Ind., July 27.—A new
feature in the Indiana bituminous
miners' strike has developed which is
likely to disorganize the State Federa-
tion of United Mine-Workers. Two of
the Sullivan county locals have ex-
pected President Purcell to call out the
Clinton miners, who are working under
a special agreement, and declare a gen-
eral strike throughout the state. They
notified the president that in the event
of his refusal they would demand his
resignation, together with that of Sec-
retary Kennedy. The president refused

MAIMED BOY'S FOLKS HEAR OF HIS INJURY

FRANK McDONALD'S FATHER
WRITES FROM NEW YORK.

Young Man Was a Good Worker But Had the Roaming Fever and Was on His Way To California When He Lost His Leg at Milton Junction.

Word was received today from the parents of Frank McDonald, the boy who lies in the county asylum with one leg off. This was McDonald's second trip and he was going as far as California. After the accident at Milton Junction he was loath to give his name and told his father's address only after much urging. His father writes to Poormaster Kenyon as follows:

NEW YORK, JULY 25, S. B. KENYON: DEAR SIR—I received your letter and cannot express my feelings in words, and also the rest of my family and friends are very much affected. I am very thankful to you for the interest you have taken in him and hope in time to come to be able to repay you for your kindness. At present business has been very poor and I have all I can do to keep my head above water. I have a large family and it takes all I can earn to feed and clothe them. Frank has always been of a roving disposition, not caring to stop in any place long. He was in my employ a short time ago, just before going away, and without any apparent cause. He was honest and upright in all his dealings and also a good worker until he made the acquaintance of some men here and they put it in his head to go on a tramp.

"Do all you possibly can under the circumstances until he is able to leave there and I will try and get money to send or go to him myself. I do not know the young man's name who was with him, unless he was the same fellow who was with him once before. His name was Hayes.

Frank has no sister in Dakota. He may have had friends there as the last time he went away he worked in a hotel some where in that neighborhood. I hope you will do all you possibly can for him and I will not forget you. Hoping to hear from you as soon as possible I am yours respectfully.

JAMES McDONALD.

Milton Junction people have taken quite a liking to young McDonald on account of his uncomplaining bravery. Nearly every day some one drives from the village to take him flowers or visit him.

CARTER IS PHIL CHEEKS DOUBLE

Now Both Are Saved a Good Many Embarrassing Complications.

Now that Charles A. Carter who is well-known to Janesville people, has been appointed as steward at the Mendota hospital for the insane and therefore off "the road" he will not be taken for Phil Cheek in every town in the state and both will be saved a great deal of embarrassment. For a number of years Mr. Carter has been traveling salesman for a Milwaukee candy factory. He is well-known in all the principal cities of the state. Those who are not well acquainted with him cannot tell him from Cheek a short distance away. They are of the same height and build, have the same walk and dress similarly. Phil also being a traveling man is well known within the borders of the Badger state. It was not infrequently that someone asked Mr. Cheek what caramels were worth, while Mr. Carter was occasionally avoided by people who took him for "Mr. Cheek, the insurance man." They had like experience every day, and as the result they were finding out too much about each other's affairs. Political and other confidences intended for Phil's ears were frequently whispered in those of Charles and vice versa. Now, however, the trouble will probably cease, for Mr. Cheek has the whole field to himself, as Mr. Carter's duties keep him in Madison.

ARTESIAN WELL FLOWING FAST

It Furnishes More Water Already Than The Old One Ever Has.

Superintendent Mitchell says the new artesian well is flowing stronger than the old well and the water is as clear as crystal. The work of piping it will soon begin and trenches are being dug on Oak street. From Oak street the pipes will run north on River, until they connect with the regular supply pipe that runs into the reservoir.

HARD TIMES SEEING THE RACES
Party of Janesville Boys Have a Lively Experience at Freeport.

Three Janesville youths have just returned after a weary trip to Freeport. They tried their best to see the Freeport races but failed. They jumped an outgoing freight train Tuesday evening, and on the way one of the trio fell asleep. When he woke up he found himself at Savannah. The two other boys tried their best to get into the Freeport grounds but didn't have the dollar and found they were not wanted. They were finally glad to get back home.

A Most Wonderful Cure Produced by "Septicide."

The doctors have little faith in the cure of Bright's disease of the kidneys and generally look for a fatal termination in such cases in the very near future. But by reading the following statement by H. S. Phelps who is with Pentacost & Co., fish dealers, Chicago, it looks as though even this terrible disease had met its destroyer. Mr. Phelps says:

"I was treated eleven months in the Presbyterian Hospital of this city for Bright's Disease of the kidneys and while they were very kind to me and did all they could for me, I steadily grew worse, in fact, was laid out in the dead room three different times, but each time rallied; and finally not willing to submit to an operation of removing one of my kidneys, I was turned out of the hospital as incurable.

Just then a gentleman called my attention to Septicide, with the assurance that it would cure me. I reluctantly tried it, but followed the directions to the letter, and oh, what wonderful results. I so far recovered that in three weeks I went to work, still gaining in health until my weight increased from 80 pounds to 164 pounds. I am now in perfect health, eating, drinking and sleeping well, and I know that 'Septicide' saved my life."

After all the wonderful cures of different diseases by this remarkable antiseptic remedy, we would ask, is there a disease Septicide will not cure? For sale by Prentice & Evenson.

Interesting Facts About the Quick Meal Stoves

Three hundred fifty two million one, hundred and twenty-two Quick Meal gas-line stoves were sold from 1882 to the close of the year 1894. This number put into a solid column with a 100 stoves side by side would make a width of 250 feet, and a height of 7042 feet. The Eiffel tower is 1000 feet high, the largest pyramid 560 feet, St. Peters, Rome 530 feet and the Ferris wheel 265 feet high. A tower made from Quick Meal stoves would be considered one of the seven wonders of the world. See these stoves at the Lowell Hdw. Co. store.

ANDREW BARLASS KILLED BY A KICK

THREE RIBS SHATTERED OVER
THE HEART.

Shadow of Life Remained But No Word Was Spoken—Funeral Services at the House Monday Afternoon—Record of a Useful and Well-Spent Career.

Death came almost instantly to Hon. Andrew Barlass. A horse's hoof shattered three ribs over the heart. His pulse beat for fifteen minutes but it was only the faintest flicker of life's expiring flame.

Mr. Barlass had been at work in the harvest field all day. About six o'clock he went back to the barn with his son. As he walked through the barn he passed behind a horse and a mare that had been fighting

Hon. Andrew Barlass.

about and were still weaving nervously in their stalls. He was directly back of the mare when she lashed out with both hind feet. One foot struck him directly over the heart. It did not cut the flesh but shattered three ribs into fragments. The other hoof struck Mr. Barlass squarely on the forehead cutting an ugly gash.

"Oh!" gasped the stricken man and fell back into his son's arms. He never spoke again.

In the house, where he was carried at once, he seemed to recognize members of the family but could make no sound.

In their first hasty examination the family did not discover any trace of the blow over the heart. It was not until Dr. James Mills arrived that this injury, doubtless the fatal one, was known.

Sorrow Throughout the City.

As news of the death spread through Rock Prairie and reached Janesville deep sorrow was manifest. Mr. Barlass was one of the best known and most influential farmers in the county. Progressive and enterprising in his methods he had been a power in advancing the agricultural interests of the county. But it was the man not the farmer who was mourned. His rich endowment of Scotch sturdiness and integrity was coupled with a warmth of heart and cordiality of manner that won him friends on every hand. Men instinctively recognized in him one who could be relied upon, and were glad to give into his hands posts of honor and trust. He served in the capacity of assessor and justice of the peace for many years; for nine years he has been a member of the town board of supervisors and for three years he held the office of county supervisor.

In the fall of 1873 he was nominated and triumphantly elected a member of the assembly from Rock county and was re-elected without opposition for the two succeeding years. His record in Madison was a good one—a record of devotion to his constituents—and the qualities he showed led many to favor him for a place on the state ticket.

Happy Among His Friends.

In his home life the whole-hearted kindness of his disposition was strikingly exemplified. Memories of the Barlass home, with its never-failing sunshine and cordiality, will be long cherished. Mr. Barlass delighted in gathering about him the friends whose worth he had proven, and in such a company no boy was younger, and none could draw from a violin with more zest the reels and dances of "Auld Scotia."

The wife and children who have seen the happiest of homes turned so abruptly into a house of mourning will receive the sincerest of sympathy. To them the blow is doubled in its severity by the utter absence of warning. Mr. Barlass was twice married. After locating in Harmony he was united to Miss Margaret Clink, and to them were born four children, Margaret, now Mrs. David Clark of Harmony; Mary, now Mrs. Robert Clark of Harmony; Helen, now the wife of Dr. David Duncan, of Chicago, and David Barlass, a prominent citizen of Hastings, Nebraska.

In 1851 the death of the mother occurred. Ten years elapsed and Mr. Barlass was again married, Margaret G. Beveridge becoming his wife on 18th day of June, 1861. This union

was blessed with five children, Agnes May, who became Mrs. Will Koeblin, Andrew James, Christian, John A. and William Frank.

Came to America in 1842.

Mr. Barlass would have been seventy-three years old the 30th of next September. He was born in Kinross parish, near Loch Leven, Scotland and was educated in one of the common schools which were and are Scotland's pride. For a time a nephew of Robert Burns was his master.

Less than twenty years of age he was when in 1842 he sailed for America. He landed in New York, September 9, after a forty-six days voyage and followed the Hudson river the Erie canal and the lakes to Chicago. In Chicago he got a team, and October 20 saw him in Janesville.

For two years he worked on the farm of his uncle. Then he bought eighty acres in section thirty-six, Harmony township, which formed the nucleus of the 200 acres that now constitute the Barlass farm. Nothing

was spared that would beautify or better it, and fully \$10,000 worth of improvements now stand as a tribute to the owner's thrift and enterprise. Stock raising was Mr. Barlass' pride; and his Clydesdale horses and Durham cattle took many prizes against the best of imported stock.

Fair Directors Didn't Meet.

Mr. Barlass was vice president of the Rock County Agricultural society, and the meeting of the board of directors which was called for this afternoon, was indefinitely postponed on account of his death.

Appropriate action on the death will be taken by the Rock County Calceonian society. Mr. Barlass was vice president of the society and one of its most devoted members.

In politics Mr. Barlass was a steadfast republican, having joined the party on its organization. Earlier he supported the free-soil movement. He was a valued member of the United Presbyterian church and both he and his wife have done good work in the Rock Prairie society. Rev. Mr. Huey of the Rock Prairie church will conduct the funeral services, which will be held at the home at 2 o'clock Monday afternoon. The interment will be made in the cemetery at Johnstown Center.

MANY PAY CHECKS CASHED TODAY

Janesville Employees of the Chicago, Milwaukee & St. Paul Are Flush.

Pretty checks tinted in green and bearing the stamp of the C. M. & St. Paul road, will be in many Janesville money drawers tonight. To every workman on the system one of these checks was handed Wednesday evening and Saturday's shopping has been accompanied by general "cashing in." The system of payment on the St. Paul is the most satisfactory used on an American railroad. On the twenty-third day of each month Agent P. L. Heinrich receives the pay roll and the checks and the only formality is the signing of the roll. Promptly on the 24th, or the following day, if that day falls on Sunday, every man who is entitled to a dollar for services receives a check in full for what is due him. By special arrangements made by the company with local banks, stores, and other concerns at each point where payment is made, these checks are cashed for their face value. No "shaving" is permitted under any circumstances, and the employee receives every cent his check calls for. In this manner all are paid simultaneously and have their money by the twenty-fourth.

The old and more unsatisfactory system, which is still in vogue on many large roads, is the pay car plan. Until 1883, the St. Paul, with other large roads, ran one or more pay cars (the St. Paul had four), in which was carried the pay of all the employees in cold cash. These pay cars were veritable arsenals, in order to protect the stuff on board, and there was constantly the danger of having the special pay train dined and robbed, as has been done on a number of roads. In this way, too, it required from a week to three weeks to settle up with all the employees.

The St. Paul company pays \$1,000,000 to 23,000 employees each month.

WHIPPED BY HER PA FOR A BUGGY RIDE

SPRING BROOK GIRL WANTS TO
BEGIN SUIT.

She Took a Drive With a Young Man And When She Returned Was Treated in a Manner Very Destructive to Dignity—Supreme Court Precedents Lacking.

A angry father, a rebellious daughter and a good-looking young man. These are the parties in Spring Brook's new sensation. The rebellious daughter and the good-looking young man took a drive together, and when they got back the father was waiting. "Oh, there is father," gasped the girl. "You know what he said he would do if I ever went with you again."

The young man remembered. When the carriage reached the gate the father wasted no words. He got his offspring into the house in short order, and applied Puritan discipline of the old fashioned corporal sort. The maiden, smarting from the indignity of the thing as much as from the punishment sobbed out her woe to a neighbor. Together they went to a lawyer. The lawyer heard their story, then stepped into another room to smile his fatherly approval of the Spring Brook man's course.

"The law isn't very clear about the penalty for a father who uses a willow switch," he told the young woman finally. "The thing has never been settled by the supreme court. You had better go home and wait until a decision is rendered."

They went but the temperature in Spring Brook is still high.

AS TOILSOME I WANDERED.

To the music of rustling leaves kicked by my feet, for 'twas autumn.
I marked at the foot of a tree the grave of a soldier.
Mortally wounded he, and buried on the re- treat (easily all could I understand).
The halt of a midday hour, when up! no time to lose, yet this sign left.
On a tablet scrawled and nailed on the tree by the grave,
Bold, cautious, true, and my loving comrade.
Long, long I muse, then on my way go wan- dering.
Many a changeable season to follow, and many a scene of life,
Yet at times through changeable season and scene, abrupt, alone, or in the crowded street,
Comes before me the unknown soldier's grave, comes the inscription rude in Virginia's woods,
Bold, cautious, true, and my loving comrade.
—Walt Whitman.

"7-BAR-K."

"Yes," said the old cattleman as he munched a meditative clove, "there ain't much paw an bellow, head down an tail up business to a cowboy. Speak in general an not allowin for them in- floences which disturbs none, he's as passive as a fried fish.

"About 16 years ago, before I abides in Wolfville, I was pesterin round Vegas with Bill Lockridge, who was workin a small bunch of '7-bar-k' cattle way over on the Vermejo. We'd been slashin round the plaza all day, findin fault with the whisky an amosin ourselves at our own expense, an along about 5 o'clock in the evenin Bill allows he's some sick of sech revels an conclodes he'll pint up among the dobeys explorin of Oldtown a lot. So we all goes in concert. I wasn't frothin at the mouth none to go myself, not seein no relaxa- tion pokin about permiscus among a passel of Mexicans, an me loathin of 'em nacheral, but I goes, aimin to sorter ride herd on Bill, which his disposition is some free an various an liable to mix him into trouble. Not that Bill is bad—none whatever—but bein seven or eight drinks ahead of that plaza whisky makes him feel gregar'ous an friendly, an he's cap'ble of goin about a-claimin of acquaintance with people he don't know at all an feelin way hostile when the stranger has symptoms of doubt.

"So I goes along, Bill a-warblin 'The Dyin Ranger' in several keys.

"The senoras an senoritas a-hearin of the row would look out an smile, an Bill would wave his big hat an whoop from rapture. If he starts toward 'em, aimin for a powwow—which he does frequent, bein a mighty amiable man that away—they gives a squawk immed- iate an shets the door. Well, Bill goes on then. Maybe he gives the door a kick or two, informin 'em of his discontent, but that's all. At all once, while we're prowlin up one of them spacious alleys a Mexican thinks is a street, he comes up on a Italian with an organ which he is grindin. This yere organ ain't so bad, an I've heerd a heap worse strains. As soon as Bill sees him he tries to figger on a dance, but no one'll dance with him.

"In which event," says Lockridge, "I plays a lone hand."

"So Bill puts up a small dance, like a Navajo, accompanin of hims'f with whoops. But the dago can't play Bill's music, so the baile comes to a halt.

"Whatever is the matter with this yere tune box anyhow?" says Bill. "Gimme the music for a green corn dance an don't make no delay."

"This yere man can't play no green corn dance," I says.

"He can't, can't he?" says Bill mightily scornful. "Wait till he tries. I know this man of yore. I meets him two years ago in Druce's, an me an him has quite a time."

"Whatever is his name, then?" I asks.

"Antonio Marino," says the dago.

"Marino," says Bill, "that's right. I recalls it because it makes me think fust he's a sheep man, an I gets quite hos- tile."

"I never see you," says the dago.

"Yes, you did," says Bill. "You jest think you didn't see me. We has drinks together an goes out an shoots up the town arm an arm like brothers."

"But the Italian insists he never sees Bill. This makes Bill ugly a lot, an be- fore I can get to sop it he outs with his six shooter an puts a hole into the organ.

"These yere tunes I hears so far," says Bill, "is a heap too frivolous, an I figgers this oughter improve 'em."

"When Bill shoots, the Italian man heaves the strap as holds him to the organ over his head an flies. Bill ketches the music box, keepin it from fallin, an after awhile begins turnin the crank to try it. It plays all right, only ever' now an then there's a hole into the melody like it had lost a tooth.

"This yere's good enough for a dago," says Bill, a-twistin away on the organ. "Where's Marino? Whatever is the mat- ter with him? Why didn't he stand his hand?"

"But Marino ain't here no more, so Bill allows it's a shame to let it go that way, an Mexicans suffered for music. So he straps on the tune box and goes round from one doby to another a-turnin of it loose.

"How long did this yere Marino turn out his tunes," says Bill, "before he collects? However, I makes new rools for the game right yere. I plays these cadences for five minntes an then I gits action on 'em for five. I splits even with these Mexicans, which is shorely fair."

"So Bill twists away for five min- utes, an me a-timin of him, an then leans the hewgag up agin a doby an starts to collectin. He'd go up to some household a-whirlin his gun like a pin wheel, and at the mere sight of him the members gets that generous they even attempts to negotiate loans an give 'em to Bill, they're that ambitions to donate

colt offen the top of the organ; 'I've seed people turn that Jack in church, but you bet you can't jump no game of mine that way. So jest you all line up agin the wall until I tucks the blankets in on this yere outbreak in F flat I'm workin on, an I'll be with you!"

"So when Bill winds up he goes along the line of them tremblin tower- ists an collects \$11.

"They was aimin to git away with all them nocturnes an 'peggios an arias, an not say nothin," says Bill, "but they can come no twist like that, an me a ridin herd. None whatever!"

"Bill carries on thisaway for three hours, an what on splits an what on bets he win he's over \$100 ahead. But at last he's tired an allows he'll quit an call it a day. So he lugs the old tom- tom down to Franklin's office. Frank- lin is marshal, an Bill turns over the organ an the money an tells Franklin to hunt up Merino an give him the whole shootin match.

"Where is this yere dago?" says Franklin.

"However do I know?" says Bill. "Last I sees him he was a-goin up the calle like a jack rabbit."

"Just then Merino comes in view feelin some pensive an tearful about that bullet in his organ, but when he gets Bill's donation his feelin's com- mences to rise a lot. In fact, he begins to regard it as quite a scheme.

"But you'll have to round up to the alcalde, Bill," says Franklin. "I ain't shore none you ain't been breakin some law."

"Bill grumbles an allows Vegas is getting a heap too reserved for him.

"It's gettin so," says Bill, "a free American citizen don't get no encour- agement. Here I puts in half a day amassin wealth for a dago as is sittin in bad luck, an elevatin Mexicans who shorely needs it, an yere I am layed for by the marshal like a felon."

"Well, we all goes over to Steele's. Franklin an Bill an old Steele, the al- calde, goes pokin about to see whatever crimes Bill's done anyhow. They gits by the capturin the organ an shootin in- to its bowels, an standin up the tower- ists didn't worry 'em none, but the question of the music itsef sticks 'em."

"I'm shorely sorry to say it, Bill," says Steele, "but you've been a-busin of a ord'nance about playin mu' c on the streets without no license."

"Can't you beat the game no way?" says Bill.

"I shorely don't see how," says Steele.

"Mi tamblen," says Franklin.

"Whatever is the matter with tackin them tunes on ter Merino's license?" says Bill.

"Can't do it nohow," says Steele.

"Well, is this yere ord'nance accord- in to Hoyle an the Declaration of Inde- pendence?" says Bill. "I don't stand it none onless."

"Shore," says Steele.

"Turn your cards, then," says Bill. "I'm a lavabidin citizen, an all I wants is a squar deal from the warm deck."

"So they fines Bill \$50 for playin an organ on the streets without license, an he pays it an goes away peaceful."—A. H. Lewis in Chicago Tribune.

If Constantinople Falls.

What the two powers, Germany and Austria, would do in some future Rus- sian advance toward Constantinople re- mains to be seen. As long as they are not occupied with serious business of their own they will be at liberty to watch the movements of their giant rival. But let war break out between Ger- many and France, and the situation will be changed at once. How easy it will be then for Russia to claim the object of her ambition as a reward for support to Germany or even in return for a be- nevolent neutrality! A precedent for such a course is to be found in her in- forming the powers assembled in Lon- don in 1871 that she considered herself no longer bound by the article in the treaty of Paris which required the neu- tralization of the Black sea. What Rus- sia would do with her prize when she had secured it is a speculation into which there is little need to enter. That con- sideration does not trouble the minds of those who cast longing eyes upon the glories of the Golden Horn.

Russia will not be deterred from seek- ing possession of Constantinople by fears of criticism without or complica- tions within her borders. For the one she will still have her diplomacy and for the other her divine mission. If, as the mistress of Constantinople, she com- manded the mouths of the Danube, she might soothe Germany and Austria with a promise of a strict neutrality in those waters. If "Moscow would be jealous of the new Byzantium and Byzantium would hate Moscow" the same tactics that reconciled Moscow to St. Peters- burg would reconcile both to the new metropolis at Constantinople.—Fort- nightly Review.

Old Leather Breaches.

Old Leather Breaches was at one time the best known guide and trapper in Pike county, Pa. He lived in the woods not many miles from Milford, the coun- ty seat. His proper name no one knew, but on account of the leather trousers which he invariably wore he was known by every one as Old Leather Breaches.

Only occasional visits were made by the old man to town, and then he came for tobacco and whisky. One Sunday morning he walked into town and upon arriving at his favorite trading place was surprised to see it closed.

"Hello," said he, "somebody dead, I guess."

Proceeding leisurely down the main street, he went to another store, only to find this closed also. Completely non- plused, the trapper hailed the first pass- erby with: "Say, who is dead? Must be some big gun, I guess. Where is the fu- neral?"

"Why, this is Sunday, old man," re- plied the villager.

"Sunday! Sunday!" ejaculated Old Leather Breaches in surprise. "Well, I guess I'll have to keep an almanac to home after this; had all my trouble for nothing."—New York Herald.

The Best Signal-Light System.

The best night signal lights are those invented by Lieut. Very, of our navy, and named after him, Very's signals. They consist of a white, a red, and a green star, each fired into the air from a pistol, so that by firing one, two, or three of them in quick succession, and in different orders, with a pause be- tween the groups, different letters or signal numbers can be made until a sentence is complete. They can be eas- ily read from vessels twelve miles away. —St. Nicholas.

An Unusual Proceeding.

At a colored church in New Provi- dence, Ga., there was an unusual pro- ceeding on a recent Sabbath. Somebody, it was asserted, had picked the pocket of the preacher's wife, and the congrega- tion had to submit to a close search. The lady's purse was undiscovered.

The "Sublime Porte."

The empire of Turkey is called the Sublime Porte from the principal en- trance of the seraglio being a huge pa- vilion with eight openings over the gate or porte. This gate, from which the Ottoman empire took its name, is very high and is guarded by fifty cap- didjis or porters.

The Plays of Olden Times.

During the revolutionary era in Eng- land both Catholics and Protestants used the dramatic form as a means of controversy, and the plays published at that time contained as many arguments as the sermons.

A Pecos River Spring.

There is a spring on Pecos river, in San Miguel county, New Mexico, which throws out a stream fifteen feet wide and three feet deep.

Children, especially infants, are soon run down with cholera infantum or "summer complaint." Don't wait to determine, but give De Witt's Colic & Cholera Cure promptly, you can rely on it. Use no other. C. D. Stevens.

Why Does a Fellow Get Yellow?

You needn't mail an answer to this simple conundrum. We know that you know that a fellow—we use the term in no offensive sense—is yellow because he is bilious. In other words, his liver has got out of order, his bowels have become constipated. His skin and eyeballs assume (a most unwarrentable) yellow tinge, his tongue puts on a coat of fur, even in the summer time; beneath his right shoulder blade and ribs twinges remind him that a very restless imp is in their immediate vicinity. Now, if this hapless individual will simply procure and use at once Hostetter's Stomach Bitters he'll be all right shortly. Constipation, biliousness, malaria, indigestion, rheumatism, neuralgia and disorder of the kidneys and bladder all yield to this peerless family remedy and preventive. Use it promptly, with persistence and regularity. A wineglassful thrice daily.

THIS DAY IN HISTORY

- 1675—Turenne, famous French marshal, was killed near Sulzbach in Alsace.
1684—Battle of Killcrankie; the highlander James Graham defeated the troops of William III.
1777—Thomas Campbell, poet, born; died 1844. Jane McCrea was killed by the Indians while a guest of the British.
1803—The American steamer MONTGOMERY Golden Gate, plying between San Francisco and Panama, was burned at sea; 180 lives lost; \$1,400,000 in gold sunk.
1806—The laying of the French Atlantic cable was successfully completed amid great rejoicing.
1870—Mme. Marie Ratazzi, noted Italian actress, died at Florence.
1883—Montgomery Blair, postmaster general in Lincoln's cabinet and a very prominent Unionist, died at Silver Springs, Md.; born there 1814.
1892—Intense heat throughout the United States; many fatal sunstrokes.

TOO MUCH COYNES

Nobody doubts that General Harrison wants the presidential nomination. Col. This and Hon. That, who claim to "understand the ex-presidents' position" may talk until doomsday without altering public opinion on this point in the least.

It would be much better all around, however, if these sages were silenced and a frank statement were made by General Harrison himself. Nobody supposes he is actively seeking a second term, or that he will engage in any undignified scramble for it, but everybody believes he wants it, and a candid acknowledgment of this fact would raise up new friends for him. The people like frankness among men holding or desiring public station. Office-seeking is creditable if pursued in a manly, open way. On the other hand, the coyness, the mystery and the evasiveness affected by many of the presidency seekers of the present day anger and disgust the people.

HE KNOWS HOW TO GET LAND

When a man knows anything in England, they put him in parliament. When a man knows anything here he gets into congress only after beating the ringsters and defying the bosses. England wants the lion's share of Africa. Henry M. Stanley probably knows more about that interesting continent and how to get it than anyone else, and the value of his advice to foreign secretaries is recognized promptly by giving him a seat in Westminster. Stanley has the sort of African statesmanship that is practical and the British don't mean any other nation to get the benefit of it.

WHERE WAGES REMAIN LOW.

Have democratic friends noticed that almost the only industries where wages are going up are the ones that were allowed protection by the Wilson law? Iron was favored because of the growing iron interests of the south, and iron workers' wages throughout the country are advancing. Woolen goods, on the contrary, were so entirely a northern product that they got no consideration, and woolen mill hands are still working at panic prices. There has not been one advance in the pay rolls of woolen mills to ten in the iron foundries and machine shops, a fact which the Wilson law does much to explain.

Fifty-cents-on-the-dollar democrats in Ohio call the honest money men of their party "John Sherman democrats." In striving to deserve this compliment a good many democrats are likely to slip over the fence into the republican camp.

England's new coinage will serve for weights as well as money of the realm. A penny is one-third of an avoirdupois ounce, the half-penny one-fifth and the farthing one-tenth.

Port Worth, Tex., July 26.—D. O. Freeman, state secretary of the Order of Railway Telegraphers, states that if the order of Superintendent Edson of the Cotton Belt road cancelling the schedule at present existing between the operators and the railroad company goes into effect Sunday there will be trouble. He states that his order will positively resist all attempts to abrogate the agreement and in that case trouble is anticipated.

Mine Explosion in Prussia.

Bochum, Westphalia, July 27.—An explosion occurred yesterday in the Prince von Cursen mine in this vicinity. The bodies of thirty-two victims of the accident have been recovered and a number of persons are still missing. The searching parties are experiencing much difficulty in exploring the mine. In addition to the killed nine men were severely burned by the explosion. The most distressing scenes are witnessed in the pit.

VARIOUS ITEMS.

Trousers Have Become a Recognized Article of Feminine Apparel.

Rosettes made of fine chip were some time ago introduced in small dimensions for little bonnets and became rather popular mixed with lace, flowers, chiffon and other milliner's materials. Their success has induced their inventors to enlarge their sizes, and they are used as clusters on hats and bonnets. Though they are never likely to supersede more artistic ornaments, they will be found very useful for the seaside and for traveling, as rain does them no harm, nor, unless placed under a very heavy weight, will chip rosettes suffer from being packed in trunks.

Hats are exceedingly fanciful and vary greatly in style this season. A large quantity of flowers is used, especially roses, poppies and lilies, the intensity of color of the last named blossoms being modified by mixing with those of the brilliant natural tint very light blues and black ones or bows of pale blue ribbon. A bright hat and bodice frequently accompany a plain black or neutral tinted skirt, the ingenuity of fashion being at present mainly expended on the upper part of the costume.

It is interesting to observe how rapidly trousers are becoming a recognized article of the feminine wardrobe. So short a time

GARDEN PARTY GOWN.

ago the idea of such a garment for women save under a long riding habit was so ridiculed and condemned that there is something really ludicrous in the sudden collapse of loud mouthed opposition and the passive acceptance and even tentative approbation that have taken its place. The increasing vogue of sports which absolutely demand the wearing of trousers is chiefly responsible for this rapid change of opinion. The requirements of pastime are far more readily acquiesced in than the demands of uninteresting hard work, and though trousers are quite as convenient to wear about housework and scrubbing as they are for bicycling and golf they might have been forbidden by convention for another century had it not been for these and similar sports.

The sketch shows a gown of glaze brocade silk, green and rose in color. The bodice is fitted behind and gathered in front and opens over a square, draped chemise of straw gauze which is framed with choux and ribbons of green. The collar and plastron are of guipure de venise, the girdle of green satin. An 1830 bonnet of rye straw trimmed with yellow roses.

Boston School-Girl Killed.

Boston, Mass., July 27.—The body of Alberta Stuart, a 14-year-old school girl who disappeared from her home at 29 Myrtle street Thursday afternoon, was found in the Charles river yesterday. Medical Examiner Harris has found that she was assaulted, and it is believed that she was thrown into the water while unconscious.

May Lynch a Murderer.

West Palm Beach, Fla., July 27.—News reached here by a schooner of the killing at Lemon City of John Highsmith, ex-tax-collector of Dade county, and George Davis, his brother-in-law. The double murder was committed by Sam Lewis, a bartender. Lewis escaped and a posse is in pursuit. There is talk of lynching if he is captured.

Monona Lake Assembly.

On account of the above meeting the Northwestern line will, from July 22 to August 2, sell excursion tickets to Madison and return at greatly reduced rates, good for return until August 3, 1895, inclusive. For tickets and full information apply to agents Chicago & Northwestern railway.

LOCAL MILLS BUY 16 CARS OF COTTON

ADVANTAGE TAKEN OF THE LOW PRICES.

Tramps Few In Local Switch Yards—
Race Horses Go to Stoughton—
Delegation Go To Hear Talmage—
Garden Truck Not as Plentiful as Usual.

JANESVILLE cotton mills are being stocked with material while prices are low. There was a heavy drop a few days ago, but a rise has followed, and local concerns are supposed to have traded to good advantage. Eight carloads of Georgia cotton rolled into town on the St. Paul road last evening. It was the second shipment within the last few days, making sixteen cases in all. There was an advance of five points in cotton yesterday, midling uplands being quoted at seven cents. Quite a large shipment of Janesville cotton bales, left the city early this morning, for all parts of the country, but the majority were billed to Portland, Oregon and California points.

The premium list for the Rock County fair is now in the hands of the printers, and will soon be ready for distribution. Those wishing to advertise or having any special suggestions, will be received with thanks at the office of secretary D. W. Watt.

The real tortoise shell in the Milwaukee street window of A. F. Hall & Co., "the reliable jeweler," surrounded by a fine lot of their ornaments of the same material continues to attract attention.

A good sized audience witnessed the performance of the Van Dyke Eaton company at the Myers Grand last evening. The bill was "Face to Face" and tonight they will close their engagement with the play "The Pulse of New York."

ALL PHONES CUT OFF SUNDAY MORNING

THE "HELLO GIRLS" WILL GET A DAY'S REST.

New Switchboard Will Be Put in Place Tomorrow and All Instruments Will Be Useless Until Monday When Scores of New 'Phones Will Be Connected.

For the first time since Janesville folks learned to say "hello" the "telephone girls" will be given a rest tomorrow. Subscribers will miss her voice for at least one dry and Sunday calls will come to naught.

This is on account of the new switchboard and the metallic circuit system to be used in place of the old one. Subscribers who take advantage of the new system will have their instruments connected with central by two wires instead of using one wire and relying upon the earth for a return.

A new pattern of switch board was required before this change could be made. Besides the old board has been outgrown. The new board will be in running order by Monday, and will connect a hundred new phones with the circuit. Before snow flies Manager Willitz expects to have three hundred subscribers on the list. Janesville is now about the best 'phone town in the state outside of Milwaukee, and the company have orders for many instruments which could not be placed because of the small switchboard. The reduction of the price is the cause of the boom.

BOY PICKPOCKET TOLD A FIB.

His Home Was Not in Chicago But at Toronto, Canada.

It was a touching little story that William Blakemore, the boy pickpocket, told Judge Bennett about how he preferred states prison to letting his father in Chicago know. Yesterday he made a hole in the yarn, however, for he told the sheriff, on the way to Waupun, that his home was not in Chicago but in Toronto, Canada. He did not seem to be a bit cast down by his sentence, but took it as a matter of course, and one of the hardships of his trade.

TEA SOLD BY LAUNDRYMEN

Janesville Chinamen to Act As Agents For Their Countrymen at Home

Janesville Chinamen intend to branch out as full-fledged tea merchants. They will run the laundry as well, but expect to make a neat little sum on the fragrant Pekoe and Young Hyson. A Chinese company is said to be behind the scheme. All over the country tea is to be offered to the public without the intervention of jobbers. This is the first town in the state where the attempt has been made.

FORD MILL IS SOLD; J. B. MINOR OWNS IT

PRICE PAID SAID TO HAVE BEEN \$9 500.

For Some Time The Property Has Been Operated in the Interest of The First National Bank—Transfer Includes Power, Land and Milling Plant.

A big deal in milling property was made last evening, the Ford Milling Company property being transferred to J. B. Minor, the shoe man, brother-in-law of the former owner.

For the last year the mill has been conducted in the interest of the First National bank, which held large claims. Officers of the bank had supervision of the business.

Under Mr. Minor's ownership the name of the Ford Milling Company will be retained, and O. C. Ford will have charge of the practical details. A general milling business will be transacted.

The price paid for the property is said to have been \$9,500. Building, land and water power are all included. RUNAWAYS ARE ALL THE STYLE.
